Jan Ryan Hernandez

Value Statement: Strategic Virtual Professional with background in business analysis, team leadership, and customer support. I partner with busy executives and scaling enterprises to optimize operational efficiency. By automating manual tasks and turning chaotic workflows into structured systems, I save executives time and improve the client experience.

Summary of Qualifications:

Highly organized Operations and Administrative Professional with over 15 years of corporate experience in customer support, file organization, and business reporting. Proven expert at streamlining daily operations, automating tedious spreadsheet tasks, and maintaining structured digital workspaces. Combines exceptional communication skills with a proactive approach to handle inquiries, manage schedules, and free up valuable time for business leaders.

1. As a Customer Service Representative, I have dealt with difficult customer relations and still maintained high satisfaction rate.

2. As a Team Leader, I was able to lead a group of 20 people with minimal to no experience in data analysis and reporting. I helped them improve on the required skills through a training program I initiated and facilitated called “Queue Management Academy”.

3. As a business analyst, I was able to improve standard operating procedures by suggesting process improvements and automate reporting processes.
